

The quickest & easiest way to create expense reports

Manufacturing/Technology: Cut over-head, run a lean operation, and effectively manage global approvals and compliance.

ABUKAI provides a great way to keep track of expenses incurred by multi-national companies. **ABUKAI Expenses** is easy to use for staff globally regardless of where business might take them - whether meeting with prospects or clients, or supporting an important product delivery or implementation project. ABUKAI eliminates all the cumbersome work associated with expense reports including typing data from receipts, converting foreign currency expenses, and categorizing the expenses. Employees spend less time completing expense reports which reduces overhead, while structured and organized reporting helps companies easily manage approvals and achieve compliance globally. How ABUKAI works:

Step 1. Simply take a picture of each receipt or email in receipts.

Step 2. Press "Submit" whenever you are ready.

Users will receive their finished expense report with cost categorization, date, vendor, amount and all the other information already filled in. In only 2 steps! ABUKAI can also configure approval flows for corporate customers and support direct integration with ERP systems or industry-specific backend systems. ABUKAI also supports the automatic reconciliation of credit card expenses if required. ABUKAI's custom corporate accounts can be tailored to a company's needs.

**Case Example:** VDE Americas is a wholly owned subsidiary of the VDE Testing and Certification Institute and a leading service provider of technical due diligence and engineering services for solar power and energy storage systems (ESS). The deeply experienced team at VDE Americas provides critical independent technical services to efficiently support a wide array of solar and ESS financial transactions. VDE's customers include financial institutions who have financed and invested in renewable energy projects, integrated manufacturers who have built some of the largest solar plants in the world, and project developers. VDE Americas relies on its best-in-class depth of knowledge and experience to provide customers with confidence in their strategic investments.

*"I'm very impressed with ABUKAI. I run a US-based wholly-owned subsidiary of a large German parent. Expense reports are sent to Germany for approval. The expense report coupled with the PDF file of all invoice images, numbered and sorted, makes for a very neat and professional submission. This reduces errors and speeds the approval process. I very much appreciate the convenience factor of simply snapping photos of receipts and then having the report processed for me."*

*We run a very efficient and lean operation. We cannot afford the administrative overhead effort to generate and manage expense reporting. The ABUKAI system is ideally suited to our cost efficient operation. It saves me time and effort, improves the approval process and is in alignment with our objective of being better, cheaper and faster. I highly recommend the service."*
