

The quickest & easiest way
to create expense reports

PAYING FOR ABUKAI OUT OF YOUR OWN POCKET: Individual Account pays back in less than one month

ABUKAI Expenses pays for itself very quickly - and you do not have to wait around for your organization to provide it for you - with the ABUKAI Expenses Individual Account.

People tend to lose receipts, do not get around to filing their expenses, and waste valuable time manually filling out expense forms.

ABUKAI Expenses changes this - and eliminates all the cumbersome work associated with creating expense reports. No more typing data from receipts, categorizing expenses and looking up exchange rates! You just take pictures of each receipt while on the road or in the office, and hit "submit." You receive the completed expense report with cost categorization, date, vendor and all the other information already filled in, along with a copy of all the receipt images - without ever having to type!

Many employees at even large companies just sign-up for their own Individual Account - so they can reap the benefits of ABUKAI Expenses right away instead of waiting around for corporate to make a decision. ABUKAI-generated expense reports can easily be forwarded from the road to an assistant for further processing, or even directly posted to a corporate online expense portal.

Case Example: IF Communications is a dynamic PR agency specialising in innovation, venture capital, technology, telecoms, mobile and media. The team works with businesses of all sizes including individuals, start-ups and global public companies, bringing the best and brightest people in the world together to help their clients reach their business goals. IF Communications is headquartered in London, with offices in New York, Philadelphia, San Francisco and Vancouver, B.C.

ABUKAI Customer: IF Communications

Ryan, who works for IF Communications, frequently travels and visits the different offices. In the past, he usually threw away receipts for taxis and other cash expenses since he didn't have the time to file all the paperwork to get the expenses reimbursed, leaving him short on cash and creating an off-balance-sheet liability for his company.

Once he found ABUKAI Expenses. He just went ahead and bought an individual account out of his own pocket instead of trying to convince his company to adopt it across the organization. ABUKAI paid for itself the first month. Ryan now just takes photos of the receipts, presses "submit" and is done.

When travelling internationally, he can even switch his ABUKAI account over from his iPhone to his Android and BlackBerry with local wireless plans as needed.

"I'm traveling constantly for business and report expenses to multiple offices. I have found ABUKAI to be indispensable - it works with any device, is always accurate and the system is never down. I used to throw away receipts every month for taxis and other cash expenses. With ABUKAI I'm recovering over \$100 per month that previously went unreported. ABUKAI is the best \$10 monthly investment I've ever made!"
