The quickest & easiest way to create expense reports

DIRECT INTEGRATION: ABUKAI Expenses can directly integrate with existing Expense and Accounting Solutions, including Xero Accounting

ABUKAI Expenses can directly post expenses into many existing expense and accounting packages, including Xero online accounting.

With the direct integration with Xero, ABUKAI offers a great way to get rid of all those hassles with expense reporting. ABUKAI eliminates the cumbersome work associated with creating expense reports including typing data from receipts, categorizing expenses and looking up exchange rates.

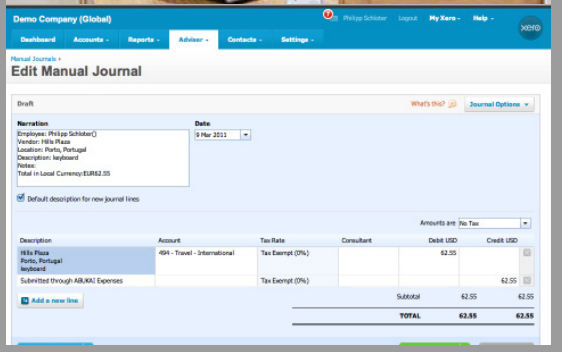
Step 1. Simply take a picture of each receipt while on the road or in your office.

Step 2. Press "Process report" whenever you are ready.

ABUKAI creates the completed expense report with cost categorization, date, vendor and all the other information already filled in, along with a copy of all the receipt images, directly within Xero. In only 2 steps!

ABUKAI categories expenses directly based on the cost categorization set-up in Xero ABUKAI can also be configured to read out the VAT amounts, directly from the receipts, for your country.

By default, ABUKAI generates new expense claims within Xero. However, if dealing more with invoices rather than travel expenses, ABUKAI can also be configured to post the scanned expenses as invoices into Xero.



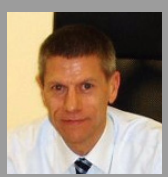
Case Example: Certax Accounting was established in Leeds, West Yorkshire, United Kingdom over 10 years ago by Chris Skelding. Chris, an Incorporated Financial Accountant, has successfully built the practice by concentrating on the delivery of a top quality, cost effective service which fully meets the needs of his client base.

ABUKAI Customer:

CERTAX accounting
Professional Accountants & Tax Advisers

Along with his highly skilled and friendly team, he provides an extensive range of services including bookkeeping, business start-up advice, payroll services, tax advice, management accounts and much more.

Certax uses Xero as well as Sage for many of their accounting needs, and is now using ABUKAI for their expenses. Users just scan the receipts with the ABUKAI mobile application, and ABUKAI directly post the expenses into Xero.



"I hate messing with small receipts, I usually put if off until I have time to rummage through them. We are using Xero as our acconting solution. Now with Abukai's integration with Xero its so easy. I think its great. The detail ABUKAI produces in Xero is unbelievable. Even if the receipt is hand written it still picks up the detail.

Thanks for the best thing since sliced bread!"
